

- 1) The hero section feels visually cluttered, with oversized text, excessive empty space, and overlapping elements that affect overall alignment and readability.

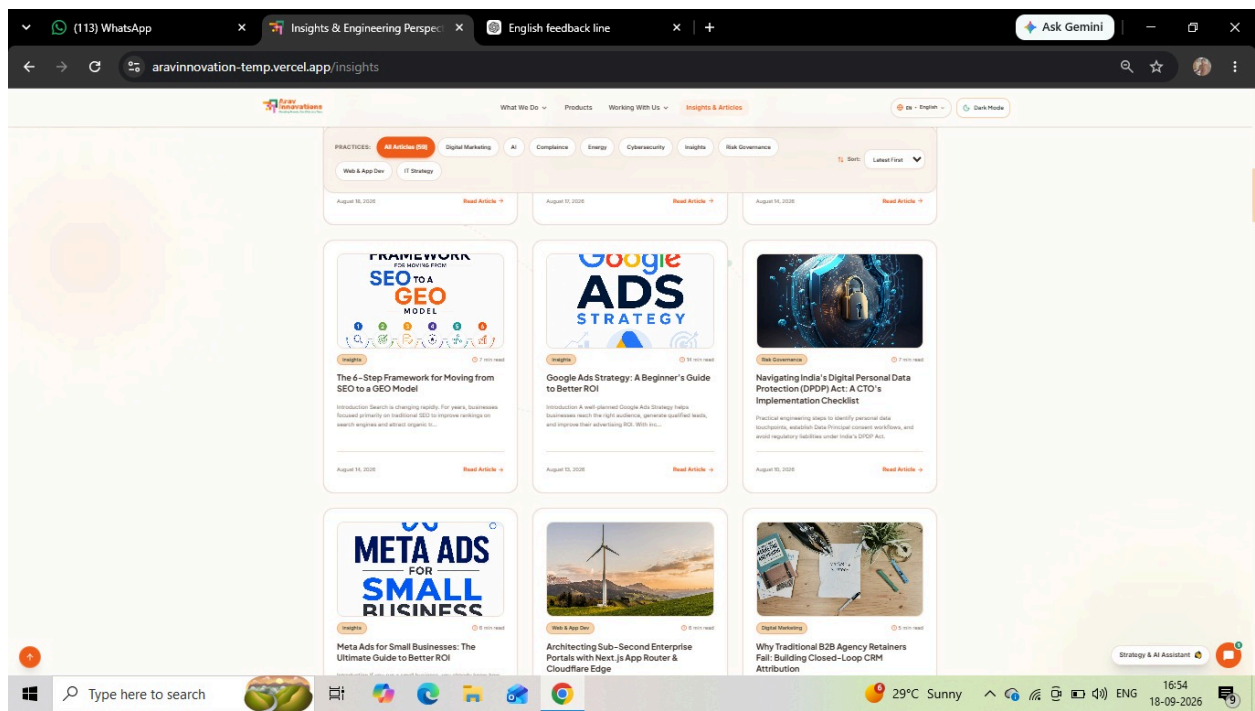

2)The service cards have inconsistent heights and spacing, while the large empty area on the right creates an unbalanced and uneven layout.

3)The hero section looks visually strong, but the text and image feel slightly crowded, with limited spacing between the content and the right-side visual.

4)The category filter section feels slightly overcrowded, with inconsistent spacing and wrapping that makes the layout look less balanced.

5)The article card grid is visually unbalanced, with excessive empty space on the right and inconsistent card heights and content spacing.

The website content is getting **cut off from the left side on mobile**, so the headings and text are not fully visible.

The mobile layout is **not responsive and needs proper alignment/spacing for smaller screen sizes**.
